2. ASSESSMENT OF THE FINANCIAL RESULTS AND GENERAL CONDITION OF THE COMPANY

The economic growth rate in Poland grew to approximately 5.0% in 2018 from 4.6% in 2017. Such growth was mainly driven by a revival in investments, which rose to 7.5% from 3.4% year-on-year, following inflows of EU funds, and was reflected in construction output growing at a faster rate. On the other hand, a slight slowdown was reported in private consumption falling from 4.8% to 4.6% in 2018, propped up by increased salaries in the enterprise sector with falling unemployment.

In 2018, the net profit of the banking sector rose by 7.5%, to PLN 14.7 billion, as compared to PLN 13.6 billion in 2017. Improved net interest income added most to the increased net profit. Higher interest revenues fueled by higher credit volumes bolstered such net interest income. The largest growth rate in 2018 was visible mainly in loans to retail clients (mortgage and consumer loans). On the other hand, growth in net interest income was partially compensated by a lower net commission income and higher operating expenses mainly due to higher personnel costs.

The Bank earned a net profit of PLN 653.1 million, i.e. 22% higher versus prior year. The high profitability of the Bank and its safe and stable capital position are the main areas where the Bank surpassed its competitors. The key factors affecting the financial result in 2018 include an increase in operating revenues, supported by consistent cost discipline and positive net impairment charges for financial assets.

Operating revenues amounted to PLN 2,149 million in 2018 and were higher by PLN 105 million (or 5.1%) as compared with 2017. The above increase was propelled first and foremost by a higher result from treasury operations, attained thanks to, among other factors, growing volumes of foreign exchange transactions, partially offset by a lower result from the interbank market operations.

In 2018, rising credit volumes from clients contributed to an increase in the Bank's net interest income by PLN 26 million, namely it grew by 2.4%, as compared to 2017. At the same time, as compared to 2017, the net commission income dropped by PLN 14 million, namely by 2.6% as a consequence of a downturn on the domestic equity market and an increased risk aversion on the part of customers.

In 2018, as in the prior year, the Bank strived to maintain cost discipline. On the one hand, automation and digitalization allowed the Bank to slash costs of support and maintenance processes and on the other hand, the Bank invested in sales of products by, among other efforts, increasing expenses on advertisement and marketing.

In 2018, net impairment losses on financial assets were reduced by PLN 36 million against 2017, mainly as a result of the stabilization of a loan portfolio and the repayment of several loan exposures in institutional banking.

For the Bank, it was another year of sustainable growth of lending. In the Institutional Clients Group (ICG), the growth rate reached 13%, i.e. above the GDP growth rate in 2018, and in the Global Consumer Banking (GCG) business the volumes increased by 5%. As far as the acquisition of new retail volumes is concerned, those efforts were mainly conducted via electronic channels, e.g. in the acquisition of new cash loans.

As at the end of 2018, shareholders' equity was practically unchanged versus the end of the previous year. The Supervisory Board believes that the level of capitals maintained by the Bank is sufficient to ensure its financial security, as well as the security of deposits entrusted to it, and to stimulate its further growth.

As of December 31, 2018, the capital adequacy ratio of the Bank was 16.5%. The high level of the capital adequacy ratio achieved by the Bank confirms its financial security and strong capital base.

Considering that in 2019, in both global and Polish economy such risks may appear as: sluggish global economic growth, the pace of monetary tightening by main central banks in the world, and growing pay pressure in Poland - the Supervisory Board will continue its close cooperation with the Management Board to monitor the impact of those risk factors on the situation of the Bank.

Taking into consideration the financial results achieved, the safe position of the Bank, the stable capital and liquidity ratios and the consistent and coherent strategy of the Bank, the Supervisory Board's assessment of the activities of the Bank in 2018 is positive. Simultaneously, the Supervisory Board is convinced that both already started and planned initiatives will contribute to an increase in shareholder value by allowing the Bank to achieve optimal financial results and market position despite a challenging market environment.

3. ASSESSMENT OF RATIONALITY OF THE BANK'S POLICY IN THE AREA OF CORPORATE SOCIAL RESPONSIBILITY AND SPONSORING

3.1. Corporate social responsibility of the Bank

The Bank is an institution which, since the beginning of its nearly 150-year history, has considered social and environmental aspects in its decisions, and which follows the expectations of both its business and social partners.

There is no trust without responsibility. And long-term development and success are not possible without trust. The Bank would not have its 150 year history if not for the Bank's sense of responsibility for environment. The very approach changed depending on historical situations and current needs but the Bank always was, is and will be the citizen of communities, in which it operates and with the help of which it builds its success.

1..... In regard to the requirement to approach comprehensively the issue of corporate social responsibility management, the Bank identified business activities which were of key importance from the point of view of social and community environments (taking into consideration the specifics of a conducted activity). They include activities related to investments and products, secure accessible banking services, reduction of environmental impacts, concern for people, development of communities, and responsible management.

Furthermore, the Bank's ambition is to remain, in the long term, the leader in social responsibility among banking institutions in Poland. This commitment is appreciated by placing continuously the Bank in the Respect Index ranking organized by Giełda Papierów Wartościowych w Warszawie S.A. In addition, in 2018, the Bank was awarded the title "Super Ethical Company" in a competition organized by Puls Biznesu. For many years, to a significant extent in reliance on the activity of the established corporate foundation (The Kronenberg Foundation at Citi Handlowy), the Bank has been an undisputed leader in social involvement and employee volunteering.

In 2018, the Foundation carried out programs related to entrepreneurship and financial education. As every year, "Poles' Attitudes Towards Saving" survey was conducted. For eleven years now, the survey has been appreciated by both media and opinion leaders and it is perceived as the most reliable and authoritative survey of its kind in Poland. The Foundation is also organizing the

competition for the Emerging Market Champions Citi Handlowy Award – the purpose of the competition is to promote enterprises which with success roll out their activity abroad. Another systemically relevant program of the Foundation is IT for She, an undertaking implemented in a coalition with seven international technological companies. The project supports the career development of young women in IT. In 2018, 35 charges benefited from the mentors' specialist knowledge. 120 IT female specialists from all over Poland took part in technological workshops and energetic networking during Women in Tech Camp. A volunteering campaign, in which 80 talented female IT students taught new technologies at primary schools in little towns from July to September, benefited 2000 children. On 27 and 28 November 2018, also Women in Tech Summit was organized - the largest event for women in technologies in that part of the world. Moreover, the Foundation was involved in programs funded by Citi Foundation, such as, for instance, Business in Women's Hands. It is the initiative implemented together with the Foundation for Female Entrepreneurship addressed to 50 women who want to start their own company. The Foundation also followed up activities in the scope of protection of cultural heritage, the most important of which is the annual Professor Aleksander Gieysztor Award. Its aim is to support persons or institutions rendering great service to the protection of Polish cultural heritage both in Poland and abroad. The 20th edition of the Award was won by bishop Waldemar Pytel for more than 30 years of his efforts to save, revitalize and restore the splendor of the Lutheran block of streets along with the Church of Peace in Świdnica – the UNESCO World Heritage Site. Thanks to the extraordinary determination of bishop Waldemar Pytel, Świdnica is an authentic place of dialogue between cultures and nations today.

In 2018, the Foundation coordinated Employee Volunteering Program. As in the previous years, the key project was the Citi's Global Community Day, which celebrated its thirteenth anniversary. Its participants included volunteers from Citi and Bank Handlowy, their families and friends. The volunteers carried out 207 social projects for almost 38,000 beneficiaries. Other activities within the frames of the employee volunteering are: integration trips involving volunteering, the action "Become Santa's Helper" and individual volunteering. Since its kickoff (2005), Citi employees in Poland have been involved in the program as many as 27 400 times, working more than 147 000 hours. Thanks to their commitment, over 325 000 persons across the whole country received aid.

Full description of its activities is available in the Bank's Annual Report and on the website www.kronenberg.org.pl.

3.2. Sponsoring

In 2018, the Bank and the Foundation supported numerous nation-wide and international conferences and events. One of them was the 8th European Financial Congress in Sopot, an annual meeting of representatives of the European financial sector, the world of politics and economic experts. The leitmotiv of the 8th edition of the Congress was "For the centenary – innovative and secure future of the financial sector".

As part of its cooperation with the American Chamber of Commerce, the Bank was a partner of the AmCham Diner organized during the European Economic Congress in Katowice, the Economic Forum in Krynica and the Congress 590 in Rzeszów. Representatives of the Bank participated in many panel discussions during all those events. Citi Handlowy was a sponsor of the Polish edition of Graham Allison's *Destined for War: Can America and China Escape Thucydides's Trap?* This book, written by a renowned historian from Harvard University and a practitioner in the field of international relations, is an insightful analysis of possible scenarios of future competition between the United States and China.

In 2018, the Bank continued its cooperation with Nextbike, an international city bike operator. Between March and November, city bikes in Warsaw, Łódź, Lublin, Wrocław, Białystok, Poznań, Szczecin, Upper Silesian Industrial Region, Katowice and Opole promoted products and services of the Bank. For Warsaw bikers, Citi Handlowy also launched a new version of the unique bank & bike application Citi Handlowy Bikes, for renting bikes. It includes many new functions, including an option to check how a bike ride improved quality of air in the city.

In 2018, the Bank established cooperation with Live Nation, leading organizer of concerts and live events. The Bank offered holders of Citi Handlowy cards access to exclusive pre-sales of tickets for

concerts organized throughout Poland. The strategic cooperation with Live Nation will be continued in 2019.

Under its Live Well at Citi program, the Bank supported development of sports in Poland in 2018. It was also a partner of the Polish Golf Union and the Title Sponsor of the Citi Handlowy Lexus Business Cup, a tennis tournament organized in six Polish cities from May to September. It was also a sponsor of the Ironman Poland Tour – triathlon races in Warsaw and Gdynia.

The Supervisory Board positively assesses the involvement of the Bank in the area of corporate social responsibility and sponsorship of important economic events.

4. THE ASSESSMENT OF FUNCTIONING OF REMUNERATION POLICY AT BANK HANDLOWY W WARSZAWIE S.A.

The obligation of the Supervisory Board to assess the functioning of the remuneration policy at Bank Handlowy w Warszawie S.A. results from § 28 (3) of the Principles of Corporate Governance for Supervised Institutions issued by the Polish Financial Supervision Authority (KNF) on July 22, 2014 and effective from January 1, 2015.

The Remuneration Policy implements the provisions concerning the development of remuneration rules at banks, included in the provisions of law, the Principles of Corporate Governance for Supervised Institutions adopted by the Polish Financial Supervision Authority ("Principles of Corporate Governance"), Best Practice of GPW Listed Companies 2016, recommendations of the Polish Financial Supervision Authority concerning the banking sector and takes into consideration the EBA Guidelines on Sound Remuneration Policy, referred to in Article 74 (3) and Article 75 (2) of Directive 2013/36/EU, and the disclosure of information in accordance with Article 450 of the Regulation (EU) no. 575/2013, EBA Guidelines concerning remuneration policies and practices related to the provision and sales of consumer banking products and services, ESMA Guidelines on remuneration policies and practices (MiFID).

- 2) The Remuneration Policy properly and adequately defines rules of remuneration of employees at the Bank, including Key Persons, and the form, structure and method of determining them. The rules of remuneration applicable to Members of the Supervisory Board are regulated by way of resolutions of the General Meeting of Shareholders of the Bank.
- 3) The method of implementing the Remuneration Policy and the supervision exercised over the Remuneration Policy ensure that the structure of remuneration of employees at the Bank, including Key Persons, supports the long-term stability of the Bank and is in conformity with the strategy, goals and objectives, values and long-term interests of the Bank, specifically such as sustainable growth, and allows for eliminating any potential adverse impact of remuneration systems on adequate risk management.
- 4) The Bank properly implemented all the rules applicable to fixed remuneration included in the Remuneration Policy. In particular, the Bank diversifies amounts paid to employees, including Key

Persons, as their fixed remuneration taking into consideration their professional experience, requirements concerning competences and functions in the management process of the Bank.

- 5) The Bank ensures appropriate remuneration for internal audit employees and compliance employees so that highly qualified specialists could be hired and retained in those units. The Audit Committee of the Supervisory Board approved the analysis of remuneration for the Audit and Compliance employees at Bank Handlowy w Warszawie S.A.
- 6) The Bank uses the Remuneration Policy, in addition to other measures, to promote reasonable and effective risk management and to prevent risk taking going beyond an acceptable level. Consequently, the remuneration system based on financial and non-financial performance which is used by the Bank does not reward excessive risk taking in decision making. In particular, the remuneration of each of the Members of the Management Board is determined to promote the prudent management of the Bank and on the basis of financial and non-financial performance without rewarding inappropriate decisions taken by employees.
- 7) While designing and approving the funds allocated to variable remuneration of the Bank's employees for 2018, including Key Staff, the Bank performed their respective verification. It confirmed that the Bank had an appropriate and solid capital base which justified the proposed value of variable remuneration and that it did not limit the Bank's ability to increase its capital base and that it was justified by the financial situation of the Bank.
- 8) The detailed rules applicable to variable remuneration granted to persons having a significant impact on the risk profile of the Bank ("Authorized Persons"), including Key Persons, are regulated by the "Remuneration Policy for Persons whose Professional Activity Significantly Influences the Risk Profile of Bank Handlowy w Warszawie S.A." ("Authorized Persons Remuneration Policy"). Those rules were properly applied to grant the Authorized Persons, including Key Persons, variable remuneration in January 2019 (variable remuneration for their work in 2018), i.e.:
 - a) the Nomination and Remuneration Committee of the Bank's Supervisory Board recommends and justifies the amounts and conditions of variable remuneration for persons covered by the Authorized Persons Remuneration Policy. It also expresses an opinion on the amendments to the Authorized Persons Remuneration Policy, including the amounts of components of remuneration, following the rules of prudent and stable management of risk, capital and liquidity and with special care of long-term interests of the Bank and its shareholders, investors and stakeholders. In 2018, the Nomination and Remuneration Committee of the Supervisory Board held five meetings.
 - b) The level of variable remuneration for work in 2018 was determined on the basis of financial and non-financial criteria, taking into account the costs of risk, costs of capital and liquidity risk of the Bank in the long-term run. Such defined variable remuneration was granted on 14 January 2019. It was divided into a non-deferred part and a deferred part. In turn, the deferred variable remuneration was split into a short-term part, which may be vested in employees after 6 or 12 months of deferment period, and a long-term part, which is divided into three or five instalments payable, which may be vested in employees, respectively, in 2020-2022 or 2020-2024;
 - c) In 2018, in respect of three Authorized Persons, the Bank's Management Board, after obtaining a positive opinion from the Nomination and Remuneration Committee of the Supervisory Board, decided to deprive them of the right to deferred variable remuneration which had been granted conditionally to those Authorized Persons during their employment relationship and to which they had not obtained entitlements before the work contract termination date. The decision was made in accordance with the provisions of the Authorized Persons Remuneration Policy concerning the termination of work contracts under terms and conditions of obtaining the right to deferred variable remuneration. The resulting adjustment in the amount of deferred variable remuneration was not linked to the Bank's performance or individual performance.
- 9) The Remuneration Policy adopted at the Bank ensures an appropriate method for remuneration of employees involved in the sales of the Bank's products and services, which encourages them to

act in an honest, impartial, transparent and professional way, taking into consideration the rights and interests of all Clients of the Bank in the short, medium and long term.

- 10) In 2018, the Bank correctly analyzed the roles and responsibilities of their employees in the context of the key types of risks managed by the Bank and the quantitative and qualitative criteria described in Commission Delegated Regulation (EU) No 604/2014 of 4 March 2014 supplementing Directive 2013/36/EU of the European Parliament and of the Council with regard to regulatory technical standards with respect to qualitative and appropriate quantitative criteria to identify categories of staff whose professional activities have a material impact on an institution's risk profile and, on that basis, determined the list of persons whose professional activity has a material impact on the risk profile of the Bank and, thus, should be subject to the Authorized Persons Remuneration Policy. In 2018, the list of staff covered by the Authorized Persons Remuneration Policy included 83 persons.

The Supervisory Board positively assesses functioning of the Remuneration Policy applied at the Bank.

The internal control system encompasses control mechanisms, risk control mechanisms, non-compliance risk management and internal audit activities integrated with individual processes.

The internal control system in place at the Bank is organized in three independent levels:

- Level 1 – organizational units responsible for the activity which results in taking risks and for risk management in the Bank's operational activity, as well as for risk identification and reporting to the second-line units,
- Level 2 – risk management at organizational units, regardless of the first-line risk management, and the activity of the compliance unit; units or persons responsible for setting risk management standards in identifying, measuring or assessing, limiting, controlling, monitoring, reporting and supervising control mechanisms applied by other organizational units of the Bank to mitigate risk – organizational units of the Risk Management Sector, Compliance Department, Finance Management Sector, Legal Division, Human Resources Division,

The Audit Department is supervised by the Supervisory Board via the Audit Committee composed of its Members. Organizationally, the Audit Department reports to the President of the Bank's Management Board.

The Audit Department submits, on a regular basis, but at least annually, to the Supervisory Board and Management Board, its reports on any identified irregularities and deficiencies, as well as recommendations formulated after internal audits, and activities initiated to rectify such irregularities and to implement such recommendations. The head of the Audit Department is invited to participate in all meetings of the Management Board and Supervisory Board.

The Audit Committee's powers and duties include oversight over financial reporting, internal control, risk management and internal & external audits. The Committee submits annual reports on its activities to the Supervisory Board.

At the same time, the Supervisory Board confirms its positive assessment of risk management and compliance risk management systems used by the Bank and activities of the Bank's Internal Audit function. This assessment covers all the key controls, including especially the internal controls over financial reporting and the operational controls.

In 2017, in the process of the adaptation of the Bank to the Regulation of the Minister of Development and Finance of 6 March 2017 on risk management and internal control, remuneration policy and specific method of estimating internal capital”, the Bank developed and implemented the procedure for anonymous reporting by employees of infringements of law and internal procedures and ethical standards applicable at the Bank. As part of the implementation, the Bank introduced the process of reporting infringements to the Supervisory Board (Chairman of the Supervisory Board) when they concern a member of the Management Board, and of presenting information on significant ethical matters to the Supervisory Board. The Supervisory Board assesses, at least annually, the adequacy and effectiveness of the procedure for anonymous reporting by employees of infringements – the first assessment (due to the implementation in 2017) was performed in 2019 – for the entire period of its functioning (May 2017 - December 2018).

On the basis of the information provided by the Member of the Management Board appointed to accept anonymous notifications, the Report of the Compliance Department concerning the operation of the anonymous notifications procedure for employees' notifications of breaches in the time period from May 2017 to December 2018, and on the basis of a recommendation of the Audit Committee of the Supervisory Board, the Supervisory Board assessed positively the adequacy and effectiveness of the procedure of employees' anonymous notifications of breaches.
